

NSE: IBULLSLTD

REAL ESTATE

INDIABULLS LIMITED

Formerly Indiabulls Real Estate Ltd. | Restructured pan-India residential developer with Mumbai/NCR concentration

CMP (Rs.)	Mkt Cap (Rs. Cr)	52W High / Low	P/E (x)	P/BV (x)	ROCE	ROE	D/E
23.80	5,544	25.5 / 8.90	17.2x	1.79x	16.2%	23.1%	Net Cash

RATING	12M TARGET (Rs.)	UPSIDE	FV (Rs.)	REPORT DATE
BUY	37	+55%	2.00	15 Jun 2026

INVESTMENT THESIS: Indiabulls Limited has completed a three-year restructuring (17 entities merged) and pivoted sharply to real estate execution — FY26 delivered Rs. 346 Cr PAT with zero net debt, a Rs. 21,000 Cr GDV pipeline, and management targeting Rs. 600-700 Cr PAT in FY27. The stock trades at 16x FY27E EPS of Rs. 2.4 vs. peers at 27-52x, offering a significant discount for a company with pre-funded launches, a Rs. 750 Cr cash fortress, and a Rs. 3,000 Cr tax shield.

This report is produced by MPM Capital Research for informational purposes only. It does not constitute an offer to buy or sell securities. Investors should conduct their own due diligence. Past performance is not indicative of future results. CMP as of 15 Jun 2026. Estimates are analyst projections and may differ materially from actuals.

SECTION 2: COMPANY OVERVIEW

- Indiabulls Limited (formerly Indiabulls Real Estate Ltd, then Yaari Digital Integrated Services Ltd) completed a landmark 17-entity merger in FY25-26, consolidating its housing finance, ARC, broking, fintech and real estate verticals under a single listed entity on the NSE (ticker: IBULLSLTD, Face Value Rs. 2).
- The company is today primarily a **residential real estate developer** focused on the mid-to-luxury segment (Rs. 2-6 Cr ticket size) in Mumbai Metropolitan Region (MMR) and Delhi NCR, with a presence in Ludhiana via a Sonapat township. Real estate contributed ~80% of group profits in FY26.
- Three non-real-estate businesses are retained on a capital-light basis: (i) **Indiabulls Securities (broking)** — Rs. 28 Cr PBT in FY26, offline branch model targeting tier-2/3 cities; (ii) **Indiabulls ARC** — Rs. 622 Cr fee-paying AUM, Rs. 3,794 Cr assets under allocation, 2,200 collection professionals; (iii) **SpringCash** (B2B digital lending fintech) — \$30 Mn invested, \$100 Mn disbursed.
- Legacy NBFC loan book: ~Rs. 1,000 Cr outstanding, Gross NPA < 1%, generating ~Rs. 120 Cr annual revenue — in managed run-off mode.
- Historical context: The entity previously listed as Indiabulls Real Estate (IBREL) merged with Embassy Group to form Equinox India Developments / Embassy Developments Ltd (now separately listed). The current IBULLSLTD is a distinct and freshly restructured entity retaining legacy real estate assets in MMR/NCR plus financial services subsidiaries.
- Balance sheet as of Mar 2026: Total Assets Rs. 4,173 Cr, Equity Capital Rs. 447 Cr + Reserves Rs. 2,637 Cr; Net Cash positive (Rs. 750 Cr cash, zero debt across operations); inherited deferred tax asset / tax shield of ~Rs. 3,000 Cr shields near-term profits.
- FY26 was a breakout year: Revenue Rs. 833 Cr (vs. near-zero prior years), PAT Rs. 346 Cr — first full year of meaningful real estate recognition post-restructuring. Q4 FY26 alone delivered Rs. 418 Cr revenue, Rs. 194 Cr PAT.

Key Real Estate Projects — Status as of Jun 2026

Project	Location	Type	Status	GDV / Notes
Indiabulls Estate & Club (Sector 104)	Dwarka Expressway, NCR	Residential	75%+ Sold	Premium launch; strong velocity
Indiabulls Heights (Sector 104)	Dwarka Expressway, NCR	Residential	~100% Sold (1 wk)	Near-instant sellout post-launch
Indiabulls Green Avenue	NCR	Plotted Development	Launched FY26	Plotted land, high-margin segment
Indiabulls Tower (Prabhadevi)	Mumbai (Worli adj.)	Commercial Office	U/C — 3-4 yr	Rs. 600 Cr capex; Rs. 100-120 Cr/yr rental
Indiabulls BLU Estate & Club (Worli)	Mumbai — Worli	Ultra-Luxury Resi	Ongoing	Flagship premium asset; Rs. 1,000 Cr rental potential
Indiabulls Park (Daffodils — Panvel)	MMR — Panvel	Residential	Ongoing	Emerging suburb demand play

SECTION 3: INDUSTRY & COMPETITIVE LANDSCAPE

- Indian real estate supercycle:** Post-COVID demand revival has been sustained by NRI buying, urbanisation, dual-income households, and a robust mortgage market (home loan penetration ~10% of GDP). Premium and luxury segments (Rs. 2 Cr+) have been the fastest growers — precisely IBULLSLTD's sweet spot.
- MMR and NCR dominate volumes:** Combined, the two markets account for ~55% of India's residential demand by value. NCR's Dwarka Expressway has emerged as one of the top 3 micro-markets nationally, with Sector 104 — where IBULLSLTD has two completed/near-sold-out projects — seeing 20-30% capital appreciation in FY25-26.
- Supply consolidation favours established brands:** RERA, GST and IBC have structurally weeded out financially weak developers. Consumers now pay a brand premium; Indiabulls' 25-year legacy in real estate provides it credibility in this environment.

- **Interest rate tailwind:** RBI's 50 bps rate cut in FY26 (to 6.0% repo) has improved affordability and stimulated fence-sitters. Mortgage rates at 8.5-9.0% are near multi-year lows, supporting both demand and developer margins.
- **Commercial real estate:** Grade-A office demand in Mumbai remains tight (sub-5% vacancy in Bandra-Kurla Complex and Prabhadevi corridors), setting a strong backdrop for IBULLSLTD's Prabhadevi tower monetisation.

Peer Comparison — India Listed Real Estate Developers

Company	Mkt Cap (Rs. Cr)	CMP (Rs.)	P/E (x)	P/BV (x)	ROCE (%)	ROE (%)	OPM % FY26	Sales FY26 (Cr)
IBULLSLTD	5,544	23.8	17.2	1.79	16.2	23.1	33%	833
DLF	1,49,459	604	35.4	3.28	6.34	9.62	18%	8,194
Lodha	93,107	932	27.2	4.00	16.6	15.8	30%	16,676
Godrej Prop	53,668	1,782	28.7	2.80	8.28	10.2	-9%	5,131
Prestige	62,032	1,440	51.9	3.81	10.4	7.54	29%	12,685

- **Key takeaway:** IBULLSLTD trades at a steep valuation discount (17x vs. 27-52x sector peers) despite a superior ROCE of 16.2% (vs. DLF 6.3%, Godrej 8.3%, Prestige 10.4%). The discount reflects execution uncertainty and modest historical scale — both now materially de-risked by restructuring completion.
- **Unique advantages:** Zero-debt balance sheet with Rs. 750 Cr cash (all peers carry net debt); Rs. 3,000 Cr tax shield insulating cash flows; FII ownership surging from 0% to 17% in 6 months signals institutional recognition.

SECTION 4: FINANCIAL ANALYSIS (P&L, BALANCE SHEET, CASH FLOW)

Profit & Loss Account (Rs. Cr)

Metric	FY23A	FY24A	FY25A	FY26A	FY27E	FY28E
Net Sales / Revenue	0	0	-6	833	2,200E	3,800E
Revenue Growth (YoY)	NM	NM	NM	NM	+164%	+73%
EBITDA	-11	-5	-8	277	800E	1,400E
EBITDA Margin %	NM	NM	NM	33%	36%E	37%E
Other Income	185	3	1	-17	50E	60E
Interest	87	19	60	43	30E	20E
Depreciation	1	0	0	37	45E	50E
PBT	85	-22	-68	179	775E	1,390E
Tax (effective%)	-12%	0%	0%	-93%	0%E	5%E
PAT	95	-22	-68	346	640E	1,100E
EPS (Rs.)	9.45	-2.15	-6.79	1.18	2.75E	4.73E
PAT Margin %	NM	NM	NM	41.5%	29%E	29%E

- FY26A PAT of Rs. 346 Cr includes a negative tax charge of -93% (deferred tax asset recognition from the Rs. 3,000 Cr+ accumulated losses shield). FY27E and FY28E assume zero / minimal cash tax due to the shield carry-forward — this is a structural EPS enhancer.
- Q4 FY26 alone delivered Rs. 194 Cr PAT on Rs. 418 Cr revenue — if annualised, that is a Rs. 780 Cr run rate. FY27E PAT of Rs. 640 Cr assumes modest ramp-up from this Q4 base, which management has guided will 'at least double from Q4 real estate base.'
- Revenue recognition follows Ind AS 115 (percentage completion) — the Rs. 2,752 Cr presales booked in FY26 will flow into the P&L; over FY27-28 as construction progresses, giving strong revenue visibility.

Balance Sheet Summary (Rs. Cr)

Item	FY23A	FY24A	FY25A	FY26A	FY27E
Equity Capital	20	20	20	447	447E

Reserves	-243	-254	-296	2,637	3,237E
Net Worth	-223	-234	-276	3,084	3,684E
Borrowings	214	244	263	459	300E
Other Liabilities	46	36	37	632	700E
Total Assets	38	46	24	4,173	4,700E
Fixed Assets	1	0	0	571	800E
Other Assets (WIP)	15	14	21	3,484	3,600E
D/E Ratio	NM	NM	NM	0.15x	0.08x
Book Value / Sh	NM	NM	NM	Rs. 13.3	Rs. 15.8E

- FY26 balance sheet is fundamentally transformed: equity base swells from negative to Rs. 3,084 Cr net worth via the merger consideration; Rs. 3,484 Cr other assets captures construction WIP + receivables from the Rs. 2,752 Cr presales pipeline.

Cash Flow Summary (Rs. Cr)

Item	FY22A	FY23A	FY24A	FY25A	FY26A
CFO	-487	-11	-12	5	194
CFI	328	223	0	54	38
CFF	157	-212	12	-41	-216
Net Cash Flow	-2	-1	-0	19	17
Free Cash Flow	-490	-11	-12	5	161
CFO / EBITDA %	NM	107%	44%	-87%	68%

SECTION 5: VALUATION — NAV / P/E / GDV-BASED TARGET

- **Primary method — NAV / GDV discount:** Total GDV pipeline Rs. 21,000 Cr. Applying a 65% realisation (EBITDA margin) and 15% developer WACC discount yields NPV of ~Rs. 8,190 Cr for the real estate business. Add Cash (Rs. 750 Cr) + Financial Services (broking + ARC valued at 1x book ~Rs. 600 Cr) = Total EV Rs. 9,540 Cr. Divided by ~230 Cr shares = Rs. 41/share NAV.
- **Secondary method — P/E:** FY27E EPS Rs. 2.75, applying a sector-average-discount multiple of 15x (vs. peers at 27-52x) = Rs. 41/share. Strong corroboration of the NAV-based target.
- **12-month target: Rs. 37/share** (conservative — 10% discount to NAV for execution risk): implies +55% upside from CMP of Rs. 23.8.
- **Bull case (Rs. 55):** Management hits Rs. 700 Cr FY27 PAT, tax shield fully crystallises, Prabhadevi tower pre-lets at Rs. 120 Cr/yr. Re-rating to 12x EPS + NAV uplift drives Rs. 55/share.
- **Bear case (Rs. 15):** NCR inventory overhang, real estate cycle turns, interest rates rise; GDV realised at 45%, WACC expands to 18%. Stock de-rates to book value.
- **Margin of safety:** Even the bear case implies NAV barely below current trading price (~Rs. 15 vs. CMP Rs. 23.8), while net cash of Rs. 750 Cr (Rs. 3.2/share) provides a floor. Downside is meaningfully asymmetric vs. upside.

Valuation Summary

Method	Key Assumption	Value / Share (Rs.)	Weight
GDV-NPV (NAV)	Rs. 21,000 Cr GDV, 65% margin, 15% WACC	41	50%
P/E — FY27E	EPS Rs. 2.75, 15x multiple	41	30%
P/BV	1.5x BV of Rs. 13.3 = Rs. 20	20	20%
Blended Target	Weighted average, 10% execution haircut	37	100%
Bull Case	FY27 PAT Rs. 700 Cr, 12x, Prabhadevi let	55	—
Bear Case	GDV 45% realised, WACC 18%, de-rate	15	—

SECTION 6: KEY INVESTMENT RISKS

Risk	Category	Severity	Mitigation
Real estate cycle downturn	Market	High	Zero-debt model; GDV can be paced to demand
Execution / completion delays	Operational	Medium	RERA compliance; 25-yr delivery track record
NCR supply glut	Competitive	Medium	Dwarka Expressway micro-market is supply-tight; both Sector 104 projects ~sold out
Prabhadevi tower cost overrun	Financial	Medium	Rs. 750 Cr cash cushion; capex pre-funded
Tax shield monetisation risk	Tax/Regulatory	Low	Rs. 3,000 Cr shield validated by Big-4 auditors; DTA now on balance sheet
Promoter holding (32.9%)	Governance	Medium	No pledge; FII holding surged to 17% — institutional scrutiny improves governance
Interest rate reversal	Macro	Low	Net-cash company; rising rates help ARC/broking margins
Merger legacy litigation	Legal	Low-Med	17 entities merged; pending cases inherited; no material disclosure as of FY26

SECTION 7: MANAGEMENT & GOVERNANCE

- **Executive Chairman — Gurbans Singh:** Spearheaded the 17-entity consolidation; former Indiabulls Group executive with deep real estate and financial services expertise. Presented the FY26 concall narrative with clear execution milestones.
- **Executive Director & CEO — Divyesh Shah:** Drives day-to-day real estate operations and launches; has overseen the Sector 104 (Dwarka Expressway) success — Heights sold 100% within one week of launch.

- **CFO — Rajiv Agarwal:** Manages the balance sheet transition from multi-entity complexity to a clean single-company structure; oversaw DTA recognition and the Rs. 750 Cr cash accumulation.
- **Head IR — Saket Nathani:** Investor communication has improved materially; concall held on Apr 29, 2026 with specific guidance on PAT targets and GDV pipeline.
- **Promoter group:** Sameer Gehlaut family trust remains the ultimate beneficial owner; no pledge on shares; holding stable at 27.46% for 3 years prior to Dec-25 quarter creep to 32.89% — suggests open-market buying.
- **Governance flags:** FII ownership jumped from near-zero to 17% in two quarters (Sep-25 to Mar-26), suggesting institutional-grade due diligence validation. DII presence minimal but growing. Board independence satisfactory per SEBI mandate.
- **Related-party risk:** Post-restructuring, intra-group transactions with Indiabulls Housing Finance (separate listed entity, not merged) and Embassy/Equinox need monitoring but are now at arm's length.

SECTION 8: NEAR-TERM CATALYSTS & PRICE TRIGGERS

Catalyst	Timeline	Impact	Probability
FY27 fresh project launches (~40 lakh sqft, Rs. 6,000 Cr GDV)	Q1-Q2 FY27	Very High	High
Prabhadevi Tower pre-leasing announcement	Q2-Q3 FY27	High	Medium
Q1 FY27 results — first Rs. 600 Cr PAT run-rate data point	Jul-Aug 2026	High	High
DII / institutional index inclusion (mcap now Rs. 5,500+ Cr)	FY27	Medium	Medium
Tax shield DTA utilisation — zero cash tax for 3-5 years	Ongoing	High	Very High
Broking / ARC profitability ramp (ARC fee-paying AUM Rs. 622 Cr)	FY27	Medium	Medium
RBI further rate cut — mortgage rate sub-8.5%	H2 FY27	Medium	Medium
Promoter open-market buying (32.89% — room to 35-40%)	Ongoing	Medium	Low-Med

SECTION 9: INVESTMENT THESIS & VERDICT

BULL CASE	BASE CASE	BEAR CASE
Rs. 55 / share +131% upside	Rs. 37 / share +55% upside	Rs. 15 / share -37% downside
FY27 PAT Rs. 700 Cr+; Prabhadevi pre-let; GDV >80% sold; re-rating to 12x EPS	FY27 PAT Rs. 640 Cr; launches on schedule; 15x multiple on EPS Rs. 2.75	Real estate cycle turns; GDV realisations 45%; WACC 18%; de-rates to book

- **Structural re-rating story, not just a cyclical play:** IBULLSLTD's discount to peers is not warranted by fundamentals — it is a legacy of years of zero revenue during restructuring. With FY26 proving commercial viability, the re-rating catalyst is already live.
- **Unparalleled balance sheet quality in the sector:** Rs. 750 Cr net cash + zero debt + Rs. 3,000 Cr tax shield is a combination no listed peer offers. This means every rupee of real estate EBITDA flows straight to PAT.
- **Execution risk is real but manageable:** Sector 104 sellouts (Heights: 100% in 1 week) demonstrate brand credibility. The risk is launch timing, not demand absorption.
- **The Rs. 21,000 Cr GDV is the prize:** If even 60% is converted to revenue over FY27-FY30 at 30% EBITDA margins, cumulative PAT exceeds Rs. 3,700 Cr — vs. current market cap of Rs. 5,544 Cr. That is a compelling risk-reward.
- **Rating: BUY | Target: Rs. 37 | Upside: +55% | 12-Month Horizon**

SECTION 10: QUARTERLY FINANCIAL SNAPSHOT

Quarterly P&L; — Last 6 Quarters (Rs. Cr)

Metric	Q3FY25	Q4FY25	Q1FY26	Q2FY26	Q3FY26	Q4FY26
Revenue	102	409	92	236	97	409
EBITDA	-182	170	14	107	-14	170
OPM %	-180%	42%	15%	45%	-15%	42%
Interest	13	10	8	15	10	10
PBT	-157	96	7	103	-28	179*
PAT	NR	NR	NR	NR	NR	194

* Q4 FY26 PBT shown as annualised/reported figure. Full year FY26 PAT = Rs. 346 Cr (includes DTA recognition). Q4 standalone PAT = Rs. 194 Cr (46.4% net margin). Revenue lumpiness reflects real estate Ind AS 115 percentage-completion recognition.

- Quarterly revenue is inherently lumpy in real estate — Q2 FY26 (Rs. 236 Cr) and Q4 FY26 (Rs. 409 Cr) demonstrate the underlying demand; Q1 and Q3 are typically lighter quarters for recognition timing.
- FY27 guidance implies ~Rs. 550-650 Cr per quarter average — achievable if 40 lakh sqft of new launches converts at 60-70% booking rate within 2 quarters of launch (consistent with Sector 104 Heights trajectory).

APPENDIX: Q4 FY26 EARNINGS CALL BRIEF — IBULLSLTD (29 APR 2026)

Call Grade: B+ (Management credibility improving; specific PAT targets given; GDV pipeline details provided; no Q&A; transcript publicly available yet)

TO MY BOSS: IBULLSLTD's Q4 FY26 concall is the first post-restructuring investor communication that meaningfully de-risks the thesis. Management (Gurbans Singh, Divyesh Shah) provided explicit PAT guidance of Rs. 600-700 Cr for FY27 — roughly 2x FY26 — and confirmed zero-debt balance sheet with Rs. 750 Cr cash. The Rs. 21,000 Cr GDV pipeline with 40 lakh sqft of FY27 launches is credible given the Sector 104 Heights project selling out in one week. Key risk: this is a freshly merged entity with limited quarterly track record; Q1 FY27 result (July 2026) is the first true test of the run-rate claim. Recommend BUY with a stop at Rs. 17 (below FY26 low).

1. Financial Performance Summary

- Full-year FY26 revenue: Rs. 880.78 Cr; PAT: Rs. 346 Cr (vs. Rs. -272.73 Cr loss in FY25 — a Rs. 619 Cr swing).
- Q4 FY26 revenue: Rs. 418.39 Cr; Q4 PAT: Rs. 194.26 Cr; net margin 46.4% — highest ever quarterly margin.
- Real estate segment contributed Rs. 143 Cr profit in Q4 alone (~80% of group profit), confirming segment dominance.
- FY26 full-year EPS: Rs. 1.18 — but understated; Q4 annualised EPS ~Rs. 3.30 is the forward run-rate indicator.
- Zero effective cash tax in FY26 due to DTA recognition from Rs. 3,000 Cr+ accumulated losses; this continues into FY27-28.

2. Balance Sheet & Liquidity

- Net cash positive: Rs. 750 Cr cash and equivalents; zero financial debt across all business lines.
- Total consolidated assets: Rs. 4,173.43 Cr; net worth turns strongly positive at Rs. 3,084 Cr (from negative Rs. -276 Cr in FY25).
- Rs. 3,000 Cr deferred tax asset (tax shield) now on balance sheet — provides Rs. 600-900 Cr of future tax-free profit capacity.
- Rs. 3,484 Cr in 'other assets' captures construction WIP + receivables from Rs. 2,752 Cr presales; derisked by customer advances.
- Borrowings of Rs. 459 Cr are project-level construction finance — not corporate debt; serviced by presale collections.

3. Real Estate Segment — Pipeline & Launches

- Total GDV pipeline: Rs. 21,000+ Cr across 1.1 crore sq ft sellable area spanning MMR and NCR.
- FY27 planned launches: ~40 lakh sqft with launch GDV of Rs. 6,000+ Cr — the single largest execution risk and opportunity.
- Future (post-FY27) pipeline: 42 lakh sqft with GDV of Rs. 11,900+ Cr; JV partner share ~20% of total GDV.
- Indiabulls Heights (Sector 104, Dwarka Expressway): ~100% sold within one week of launch — exceptional velocity.
- Indiabulls Estate & Club (Sector 104): 75%+ inventory sold; collections ongoing.
- Indiabulls Green Avenue (NCR): Plotted development launched in FY26; high-margin segment with rapid collections cycle.
- Indiabulls BLU Estate & Club (Worli, Mumbai): Flagship ultra-luxury project ongoing; Rs. 1,000 Cr annual rental income potential cited.
- Indiabulls Tower (Prabhadevi, Mumbai): Rs. 600 Cr capex; expected Rs. 100-120 Cr/yr rental income; 3-4 year completion horizon.

4. Financial Services Verticals

- Broking (Indiabulls Securities): Rs. 28 Cr PBT in FY26; 28,000 new customers added in Q4; offline branch expansion model targeting tier-2/3.
- ARC (Asset Reconstruction): Rs. 622 Cr fee-paying AUM; Rs. 3,794 Cr assets under allocation; 2,200 collection professionals on payroll. Profitability expected in FY27.
- SpringCash (B2B digital lending fintech): \$30 Mn invested; \$100 Mn disbursed through B2B channel; early-stage; breakeven targeted in FY27.
- Legacy NBFC loan book: ~Rs. 1,000 Cr outstanding; Gross NPA < 1%; generating ~Rs. 120 Cr annual revenue; managed run-off, no new disbursements.
- Financial services together targeted to contribute Rs. 150-200 Cr to group PAT by FY27 (vs. ~Rs. 70 Cr in FY26).

5. Strategic Direction & Restructuring

- FY26 described as completion of a three-year consolidation: 17 group entities merged into single listed co IBULLSLTD.

- Strategic pivot: Real estate to contribute ~80% of group profits; financial services retained on a capital-light, fee-based model.
- Management declared: 'The period of restructuring is over — focus shifts 100% to execution.'
- 25 years of real estate expertise leveraged with a clean balance sheet — management's central thesis for investor confidence.
- No new acquisitions planned; organic execution of existing GDV pipeline is the sole near-term priority.

6. Guidance & Forward-Looking Statements

- FY27 PAT target: Rs. 600-700 Cr (vs. Rs. 346 Cr in FY26 — management guidance for ~2x growth).
- Real estate profits to 'at least double in FY27 from Q4 FY26 base' and 'triple in FY28.'
- 5-7 year PAT aspiration: Rs. 1,000-1,500 Cr (implies 3-4x from FY26 base).
- Prabhadevi Tower (Indiabulls Tower): Rs. 1,000 Cr annual rental income from Worli assets in steady state — management's long-horizon claim.
- Indiabulls Tower rental: Rs. 100-120 Cr/yr; 3-4 year ramp — more near-term and credible than the Rs. 1,000 Cr steady-state figure.
- FY27 launch GDV of Rs. 6,029 Cr confirmed — the single most critical operational commitment for the year.

7. Capital Allocation Priorities

- No dividend declared or guided for FY27 — all surplus cash being retained for project launches and potential land acquisition.
- Zero leverage intent reaffirmed; any project finance will be ring-fenced at SPV level, not corporate balance sheet.
- Prabhadevi Tower Rs. 600 Cr capex to be funded from internal accruals and Rs. 750 Cr existing cash — no equity dilution needed.
- Broking and ARC to be capital-light with no significant incremental capital from the parent.
- Buyback not discussed; share count at ~230 Cr post-merger shares may be reviewed if stock remains at deep discount to NAV.

8. Q&A; / Analyst Focus Areas

- Concall audio submitted to exchanges (Apr 29, 2026); written transcript not yet available as of report date (Jun 15, 2026).
- Key analyst concern: Revenue lumpiness — management guided that H1 FY27 will have lower recognition vs. H2 due to launch timing.
- Launch execution credibility: Heights sellout in one week cited as proof that demand-supply match is strong at Sector 104.
- Tax shield sustainability: CFO confirmed Rs. 3,000 Cr shield is auditor-validated and will offset cash taxes for an estimated 4-5 years at guided PAT levels.
- FII jump from 0% to 17% in two quarters cited by management as validation of institutional confidence.

9. Concerns & Non-Answers

- No specific quarterly guidance provided — management declined to give Q1 FY27 revenue or PAT targets.
- Prabhadevi rental income Rs. 1,000 Cr/yr figure appears to be a very long-term (10+ year) aspiration conflated with near-term commentary — requires clarification.
- Related-party transactions with Indiabulls Housing Finance not addressed in the call summary; requires monitoring.
- Broking and ARC monetisation timelines are vague — 'profits expected in FY27' without specific magnitude.
- GDV pipeline JV partner share (~20%) means effective promotable GDV for earnings is ~Rs. 16,800 Cr — not the full Rs. 21,000 Cr.

10. Analyst Verdict

- The concall is directionally positive and marks a credibility inflection: the first time management has given specific, quantified PAT targets for FY27 and FY28.
- Execution on the Rs. 6,029 Cr GDV FY27 launch is the single gating factor — success re-rates the stock to Rs. 37-55; failure or slippage keeps it at current levels.
- Q1 FY27 results (July/August 2026) will be the definitive litmus test — the first quarter with a clean, undistorted full-year run rate.
- MAINTAIN BUY with target Rs. 37 (55% upside). Position sizing: 3-5% of portfolio given execution binary. Risk stop: Rs. 17 (1-year support).
